

Video evidence of the Amendments along with the final Vote for HF/1SF1/PRO Act. I do know you cannot recall due to a vote. But when their votes allow or codifies a way for criminal activity to operate under current laws, that is malfeasance. As Governor we expect he protects all, helps enforce laws; including those for viable babies & infants born from botched abortions.

The moment of silence before signing was a nice gesture at 23 minutes.
